**CS4040 Report**

# CS4040 Research Proposal Structure

Dr Georgios Leontidis

Department of Computing Science
University of Aberdeen

October 15, 2020

# 1 Introduction

## 1.1 if required

The aim of the **introduction** is to say what *you* are going to investigate in the report and why it is interesting.

Guide length: 250 words.

# 2 Background and Related Work

A review of related work [2, 3, 5].

Guide length: 500 words.[1]

# 3 Research Question

Given the problem context (Section 1.1) and background (Section 2), you should now be in a position to present what you have investigated. **Pose this as a question.** [4] Then you should present your approach to addressing this question.

Guide length: 500 words.
